Dear Hiring Manager,

I am writing to express my interest in opportunities within your esteemed organisation, where I can leverage my nearly five years of experience as a Strategic Credit Risk Specialist. My expertise in designing and optimising acquisition and portfolio strategies, combined with a strong foundation in advanced analytics, positions me well to contribute effectively to your team.

At EXL Services, I have successfully driven credit risk analytics and portfolio optimisation, achieving significant improvements in approval rates and reductions in delinquency. My proficiency in SAS, SQL, and Tableau has enabled me to translate complex datasets into actionable insights, enhancing credit policy formulation and overall portfolio performance. I am particularly proud of my ability to automate reporting processes, which has led to substantial efficiency gains and improved decision-making capabilities.

I am adept at collaborating with stakeholders to ensure alignment with risk appetite and regulatory expectations while driving end-to-end strategy lifecycles. My consultative approach has consistently resulted in the development of recession-resilient portfolio strategies and dynamic credit line assignment frameworks that strengthen risk controls.

I am excited about the possibility of bringing my skills in credit risk analytics and process transformation to your organisation. Thank you for considering my application.

Sincerely,
Hardik Yadav
